The APC’s Board of Directors extends our support and sympathies to the Asian, Pacific Islanders, and Asian-American communities as we condemn the racist actions and attitudes that continue to persist in society. APC recognizes the significant positive influences and achievements that people of Asian heritage have contributed to culture, spirituality, innovation, and human well-being. APC’s Values affirm dignity and worth, inclusivity and diversity, and equality for all persons. We will continue to advocate for the safety and respect of all people regardless of their ethnicity, gender, sexuality, appearance, or background.

Respectfully,

APC Board of Directors
